OF THE
Municipal Officers
OF THE TOWN OF
NORTHUMBERLAND
NEW HAMPSHIRE

For the Fiscal Year Ending January 31st

1 9 4 0

Northumberland, New Hampshire, March 12, 1940.

Mr. William Lehnert, Moderator,
Northumberland, N. H.

Dear Mr. Lehnert:

In accordance with our appointment dated April 4, 1939, and the authorization given you by a resolution passed at the Town Meeting held on March 14, 1939, we, the undersigned committee, have investigated the salaries paid town officers and make the following recommendations:

First: Clerical Work

Because of the extra clerical work required of the selectmen in making out vouchers, handling correspondence, and keeping town records, we feel that town records are not up to date and current information is lacking. We also believe that because of the work involved current tax commitments for real and personal property taxes are not being sent to the Tax Collector on time, thus causing tax losses which the town would otherwise realize. In this connection, we feel that the selectmen should also be responsible for setting up tax commitments on water taxes in the same manner used for real and personal property taxes.

As a result of the above condition, we recommend an appropriation of \$200.00 a year to be used by the selectmen for the hiring of additional clerical help. However, in order that someone will be in the selectmen's office during most of the business hours, we recommend that this appropriation be given to the Town Clerk, if in the opinion of the selectmen he or she fills the requirements of the job and is capable of doing the work. If not, the selectmen may use the appropriation to hire an additional clerk to look after the many details of their work. This money should not be paid out in one lump sum but should be expended as the work is done.

Second: Tax and Water Collector

In our opinion, the work of the Tax Collector and Water Collector is similar and the functions are the same. We therefore recommend that the two offices be combined into one position called Tax and Water Collector. The salary would be \$500.00 a year, the present combination of the two offices. However, this recommendation would be effective for one year only with the idea that if no improvement in the collection of property, poll and water taxes was noted the position would be put on a commission basis, the details of which would be worked out when such a step was taken.

As a further incentive to clean up the bad situation in the collection of water taxes, we recommend that the collector be paid a commission of 2% of all collections for unpaid water taxes prior to December 1, 1939.

Third: Town Auditors

A survey was made of payments to Town Auditors in various towns in New Hampshire and because of the detail involved and the importance of the work, we recommend that the salaries of the Town Auditors be increased to \$25.00 each a year.

Fourth: Trust Funds

Finally, we recommend that a yearly appropriation of \$10.00 a year be made and paid to the Clerk of the Trust Fund. This money is for the work of making out reports for the Board. Such clerk, however, must be a member of the Board of Trustees of the Trust Funds.

Respectfully submitted,

P. G. COLBY.
LEON WARREN.
M. O. FERRINI.

REPAIRS

Some rooms were redecorated during the summer in both school buildings. The outside balcony was removed at the elementary school building and a new metal covering put on. The outside trimmings of the elementary school building were painted and some new treads put on to the east entrance stairs. The toilets

in the elementary building need some repairing before another year. Some small jobs at the high school have been done by Mr. Ryan and the boys of the Manual Arts Department.

FEDERAL AID

Application has been made again for aid in the department of Home Economics. We are not able to meet the time element in the Manual Arts Department.

MANUAL ARTS

This department is under the direction of Robert Omand. Last year, there was a very good exhibit of the things made by the students in this department. This department has made many projects for the use of the schools in the form of tables, desks, files, book shelves, etc.

Another wood-turning lathe was purchased for the shop, a band saw and a few extra tools for the machines. Another year, a few more additions should be made in power tools and equipment.

Another exhibit is to be given near the close of the school year.

HOME ECONOMICS

Justine Bosquet is the head of this department. Some very good work is done by the girls both in sewing and cooking. A small amount of new equipment has been purchased this year. A few things have to be secured each year to keep the equipment in good condition. There will be an exhibit of this department in connection with that of the Manual Arts.

COMMERCE DEPARTMENT

This department, under the guidance of Dorothy Morrison, is perhaps the hardest worked of any department in the school. Besides printing the weekly school paper and doing the regular required work, many fliers, tickets, programs, notices, etc., are done.

A new mimeograph was purchased for this department as the other one, that has been used for many years, was worn out and was not capable of doing good work. Some very good work is done by the pupils in this department.

HEALTH SUPERVISION

Dr. W. C. Schillhammer, assisted by Miss Florence Wheeler, R. N., made an examination of all children in the schools.

Many defective teeth were found. Now that we have a part-time dentist in town, I am sure that many of the defects will be corrected.

Twenty-one cases of diseased tonsils were reported as well as many cases of adenoids. These should be removed, if possible, for the benefit of the child's health.

Miss Wheeler's follow-up work is that which counts for a great deal. Her daily visits to the elementary school building is of great value. Miss Wheeler is a very busy woman and her services are very valuable to the community, as well as to the schools.

EXTRA SCHOOL ACTIVITIES

Besides the regular routine of the schools, many of the pupils are engaged in one or more of the following activities: Baseball, basketball, hockey, skiing, public speaking, debating, plays, glee club, orchestra, drum and bugle corps, conducting assembly programs, weekly school paper, camera club, etc. There are activities enough so that any child may find a place into which he or she may fit.

Recently there has been organized a patrol at the elementary schools under the direction of the AAA. It seems to be working well.

CONCLUSION

Last year the graduating class of forty-six, visited the New York World's Fair during the spring vacation. I understand that the present graduating class is

planning a similar trip.

This year, we have some special classes in which special work is being carried on in an effort to help some students, who are somewhat below for various reasons, to raise their standard of efficiency. We seem to be getting some results.

Every effort is made to make the school work of a growing quality and consequently become more efficient.

Respectfully submitted,

ALONZO J. KNOWLTON.
